What an ANAEROBIC THRESHOLD TEST can do for your workouts by John Zell

The Anaerobic Threshold is the slowest speed that the aerobic metabolism is maximally overloaded.

What is the test?

This test can simply be done by swimming a long set of repeats on short rest at the *FASTEST POSSIBLE AVERAGE SPEED.* You can chose either 100's with 10 to 15 seconds rest or 200's with 15 to 30 seconds rest. This test set runs a minimum of 30 or max of 40 to 45 minutes.

A common set for most of us are 100's or 20 x 100 on 1:30 for 30 minutes. Each swimmer needs a partner who takes the swimmers time from the pace clock and writes it down. The timer should inform their swimmer of their time, the average they are maintaining, and give encouragement.

An sample test result: Mike swims 20 x 100 Freestyle on 1:30 for 30 minutes. His average time: 1:19.

What can the results tell me?

From this test you can see your current level of conditioning. Or what kind of swimming shape you are in. But more importantly, it gives you what pace to use during different forms of endurance training. Let's look at the forms of endurance training. continued on page 3

"Anaerobic Threshold test" continued from page 1

Two forms of training: Endurance & sprint.

Endurance or aerobic (with oxygen) training is what we do most of the time. Endurance training makes it possible for us to swim faster through the middle of races without becoming fatigued. All races greater than 50 yards or meters rely on this form of training.

There are three types of endurance training: **Threshold, Overload, and Basic.**

Threshold endurance training

This is the **most effective type of endurance work**. It overloads your aerobic metabolism to the maximum without causing early fatigue because of the rapid accumulation of lactic acid in your blood. Your endurance will improve rapidly with this form of work. An example set for Mike would be 20 to 30 x 100's holding a 1:19 pace on a 1:30 to 1:35 interval. Holding this 1:19 time is the primary goal of a threshold set.

Any repeat distance can be used for a threshold set. It should total 2000 to 3000 yards and require 30 to 40 minutes to complete. Rest intervals should be short. They should be between 15 to 30 seconds on repeats of 100 to 400 yards.

Because this form of training depletes your muscle energy stores greatly, you should do only 2 or 3 of these sets in any week.

Overload endurance training

You should swim endurance repeats slightly above the threshold pace on occasion. At least once (or maybe twice) per week is optimum. This intense form of training provides a stimulus that encourages further improvements in aerobic capacity when it has plateaued. It is similar to "maxing out" with weights.

An overload set should consist of repeat distances of 100 to 400 yds with the total set being 1200 to 2000 yards. Swimmers cannot swim even slightly above their threshold pace for much more than 15 to 25 minutes before lactic acidosis occurs. The rest interval should be short and similar to those used in threshold sets, although, they can be increased slightly to try to achieve the faster time. The speed for repeats should be 1 to 2 seconds per 100 yards faster than the time for a threshold set.

So our example swimmer, Mike, should maintain a 1:17 throughout a set of 12 to 20 x 100. His send off could range from 1:30 to 1:40. Once again, maintaining that 1:17 is the primary goal.

Basic endurance training

This is the form of training we do most of the time, and is basically swimming at moderate speeds. It will improve endurance, but, at a slower rate than by threshold and overload training. This type of training can and should be done every workout. This type of work can take many forms.

Any repeat distance can be used and sets should be a minimum of 1000 yards in length to provide time for a training effect. Rest periods should be short with send off times that provide 5 to 30 seconds break. The speed for basic endurance repeats should be 2 to 4 seconds per 100 yards slower than for threshold repeats. So our friend Mike should be in the range of 1:21 to 1:23 per 100. Kicking, pulling, and drill work generally fall in the basic endurance heading, depending on the pace.

So now that I've taken the test, what's next?

Try some sets and WATCH THE CLOCK TO MAINTAIN THE PROPER PACE for the type of work your wanting to do that day. Talk to your coach about some sets that would be good for you...and how often!

"Anaerobic Threshold Test" continued from page 3

This test should be taken every 4 to 6 weeks to monitor your improvement and make adjustments in the training paces. And don't limit it to just freestyle. When taking the test, if you don't push to maintain the

FASTEST POSSIBLE AVERAGE, then your training paces won't be right.

With the variety of abilities and swimming goals we have, it is possible to have a couple different types of endurance training going on within the same common set. You just set the pace and watch that clock. Mike and Ken could do a set of 10 to 15 x 100 yard Frees on the 1:30. Ken goes first and maintains his Overload pace of 1:12 while Mike cruises a Basic endurance pace of 1:21. The possibilities are between your ears.

Some observations....

Too many times we just get in the pool, follow the leader like sheep, and swim through the sets. We use little thought about what we're doing. No plans and no clues. We do 98's and stand up instead of finishing into the wall and looking at our time. We don't know what the work is doing for us. Or with a little bit of attention given to the pace clock, what the work could do for us. Some of us don't know what overuse or abuse of threshold and overload type work is doing to us and our swim season. Try the test and apply the results in the proper manner. You might be pleasantly surprised with the fun and the results no matter what your goals happen to be.

If you enjoy reading things other than meet results and entry

Oregon Masters Swimming has a wealth of knowledgeable and very talented individuals. It's time to share. If a dozen people sat down and wrote an article we'd have the minimum for a years worth of issues.

For those of you who coach, writing an article should be a snap. If you are a member A.S.C.A., then writing can add to your points total moving you up the ladder of certified levels.

Please make it a New Years Resolution to contribute to something you enjoy getting each month.

Our preference is that articles are submitted on a 3.5" computer disk along with a printed copy. Most word processing programs will work, but our preferences are Microsoft Word, Microsoft Works, Microsoft Write.

Word Perfect, WriteNow, or Mac Write. If you don't have one of these programs, then your text saved as a standard ASCII file will probably work.

o. m. s. awards

Over the past years OMS has established several awards that are presented to its members at one of our swimming meets, usually our Association Championships in March or April. The OMS Board would like to briefly explain these awards and solicit input from anyone who would like to submit a person's name for consideration by the Board for any of these awards.

All nominations and rationale for the nomination should be made by February 1, 1996 to Jayne Chastain-Arvidson Awards Committee Chair, 11725 N.W. Damascus, Portland, OR 97229 (503) 626-7015. All nominations will be considered by the Board at the February, 1996 meeting. The various awards are as follows:

Ol' Barn Award: This award was established in 1983 in honor of our Ol' Barnacle himself, Earl Walter, who was involved in the early establishment of OMS and who has continued to contribute to OMS in a multitude of ways. This award honors a person who has made significant contributions and given a great deal of service to our organization. This award is given annually.

Connie Wilson Memorial Award: This award was established as a memorial to Connie Wilson, the founder of OMS in 1973 and long time contributor, who died in July, 1986. This award is reserved for a person who has given hours and hours of service to OMS over many years. This is not necessarily an annual award.

Special Service Award: This type of award was first given in 1985 to recognize a person(s) who has performed a specific large task(s) for OMS and/or done outstanding service in a particular area. This recognition is given whenever the Board thinks it is warranted but not more than annually.

Spirit of OMS: These awards were first given in 1986 to one male and one female swimmer per year who exemplify the spirit and camaraderie of Masters swimming. This award is based upon attitude and enthusiasm rather than service or swimming ability.

Swimmers of the Year Awards: These awards are presented annually to the four swimmers who have made the most distinguished performances in competitive swimming during the past year in all three courses, i.e. 25 yds, 25 m, & 50 m. These awards are presented to the most outstanding swimmer in the following age groups: 49 and under - male and female, 50 and over - male and female. These are based upon USMS Top Ten standings and not voted upon by the Board.

I wish to extend my sincerest apologies for not including the results from Nationals for your Club. It was on intentional on my part. When the idea was brought to me to run Oregon's results I thought it was a good idea, but, I just plain forgot you. I'm sorry if it caused you any grief and we certainly won't leave you out in the future.

1996 OREGON MASTERS SWIMMING REGISTRATION FORM

The registration year runs from January 1, 1996 through December 31, 1996.

Registrations are accepted for 1996 beginning November 1, 1995 and for 1997 on November 1, 1996. OMS is a non-profit organization supported totally by volunteers. Officers are chosen by you in elections. Your registration fee enables OMS to provide you with:

1. Local Masters Swimming meet support.

2. National representation for all Oregon Masters Swimmers at the annual United States Aquatic Sports Convention.

3. Promotion of Masters Swimming and social events.

. Our monthly publication, the AQUAMASTER, enables you to get final meet results and find out what's happening in Masters swimming. The AQUAMASTER is the ONLY source of meet entry forms. If you move, let the registrar know, so that you continue to receive this valuable publication.

\$15.00 of your \$28.00 registration is sent to the US Masters Swimming, Inc. (USMS)

USMS provides the following for you:

- Personal accident insurance when competing in OMS or USMS sanctioned / recognized meet or coached practice session.
- -"Swim Magazine" subscription for one year "The Official Magazine of USMS" Bi-monthly 6 issues 48+ pages of informative articles of all types covering training techniques, nutrition, meet results, etc.

- National championships held each May and August.

Your Club designation affects eligibility to swim on relays at any National or International Championship. Regardless of your local team, anyone within the Club OREG can swim on relays with other OREG swimmers. MACO (Multnomah Athletic Club) swimmers can swim relays with those registered with MACO. If you register "unattached", you are ineligible to swim on relays. You shall be registered for OREG, unless you specify otherwise.

INSTRUCTIONS FOR FILLING OUT THIS FORM:

- All fields must be filled out.
- 2) Check the appropriate Club.
- 3) Local Team is the team you swim with (leave blank if you do not swim with an organized team.)

4) Make check payable to Oregon Masters Swimming (OMS).

Sign the form and mail with your payment to address indicated on the form. You are considered registered as soon as the 5) registrar receives your correctly filled out application with payment. It may be up to 1 month before you receive your registration card back. Until this time you can enter your registration number on meet entry forms as 'applied for. You may enclose the registration form with your meet entry when entering a meet, but in this case send both to the address on the meet entry form and NOT TO THE REGISTRAR LISTED BELOW.
