“Swimming for Life”

Are You Ready For Some Knowledge?

by Charlie Helm

This month, as we begin the new swimming year, I thought I'd talk about getting some swimming knowledge. No, I'm not about to trash-talk my many swim rivals, but knowledge that may help you as you build up for the coming swim season. This can help all levels of swimmers from the elite level to those of us still perfecting our technique and fitness. My knowledge will be useful for the pool and open water competitive swimmers as well as the fitness or "just for fun" swimmers. Now, if I were doing my infomercial, I'd tell you for just \$99 my DVD swimming knowledge set can be yours! But, alas, I'm giving

away this special knowledge for free. You will need computer access with a decent internet connection to get my knowledge. The larger your screen and sound system is the better.

OK, here's my special "knowledge" I've been talking about: there are thousands of swimming videos available on the internet! Just a quick search on YouTube will get you plenty of results. I recommend you start with the USMS promotional video "We are U.S. Masters Swimming" to get you in the mood and pumped up. You'll see some Oregonians in that video as well. You'll also note that USMS has 62 videos currently listed. That's a good place to start. We're talking technique videos for all strokes. Competitive techniques like starts, turns and finishes for pool and open water swimmers. Fitness swimmers, there are plenty of technique videos for you. After checking out the USMS library, I watched some of Olympic Champion Natalie Coughlin's 5 video tips videos. She's part of the 31 videos listed under the H2OAudio section. I also saw some good suggestions listed for the goswim098 group. Only 409 videos listed here, including many Olympic champions. I got Olympic and World record holder Aaron Peirsal's backstroke DVD produced by this group last year. Do a simple search on YouTube for "swimming technique" and you'll see 5,390 results to choose from. New swim videos, older swim videos, Olympic swimming races, as well as plenty of videos by famous swim coaches, not so famous swim coaches, and swimmers filming their team mates with their own swim technique tips.

Watching videos can often make the "light bulb" go on and help you understand exactly the lesson your coach has been talking about for the last week. If you're an uncoached swimmer, these videos will give you things to think about and work on. So go online and get some great swim knowledge! With nearly 6,000 swim videos listed on YouTube alone, you'll have plenty of choices to keep you busy!

10 Reasons for Accepting the February Fitness Challenge on February 1st

(These 10 reasons will become evident on March 1st)

By Dave Radcliff

1. You will be healthier.
2. You will be a stronger swimmer.
3. You will have kept your New Year's Resolution going.
4. You will be proud of your accomplishments.
5. You will have a good base of swimming for the Association Meet in Hood River.
6. You will have a good base of swimming for Triathlons and Open Water swimming during the summer.
7. You will be more consistent in your training and fitness level.
8. You will have that wonderful chlorine smell of a dedicated swimmer.
9. You will be proud of your accomplishments.
10. You will be a true February Fitness Frog.

Please be sure to participate in this year's February Fitness Challenge. You won't regret it. At the end of the month, don't forget to send in your form. You definitely want to get credit for all your hard work.

See page 12 in this *Aqua Master* for more February Fitness information

Quote of the month:

Off the Block

Valentine's Day is coming up – will you be a casualty? Katie Irwin is a Mental Trainer® with Mental Training, Inc and Performance Consulting with Katie Irwin. She works with athletes and exercisers of all ages and abilities on their mental toughness.

Starting the New Year Right!

by Katie Irwin

This may come as a shock to some and a reality to others, but according to Marti Hope Gonzales, an associate professor of psychology at the University of Minnesota, research has shown that about 80 percent of people who set a New Year's Resolution on January 1 will fail by Valentine's Day. January is a great time to look at what you want to improve upon over the course of the New Year. It's a new year, a new you. I am sure we have all set a New Year's Resolution at one time or another. Think back to some of the resolutions you have set in the past. What were they? Why did you set that specific resolution? Did you accomplish them?

The way I like to approach my New Year's Resolution is to set it up the same way I do goal setting. Goal setting is more than just simply stating something you want to achieve. Goal setting should be seen as creating a game plan, a road map if you will, on how to achieve what it is that your truly want. The steps to creating a solid goal setting plan are relatively simple and the results will be life changing.

Is Your Resolution S-M-A-R-T?

When setting goals, it is important to first look at the big picture. What is it that you truly want? Where do you want to go with this goal? Why do you want to achieve this goal? Once you have answered these questions, you should be able to think of your "big picture goal," also known as a long-term goal. From here, you can then create the short-term goals that will help you accomplish this long-term goal. I like to call these short-term goals the stepping-stones to get you where you want to go. While setting both long and short-term goals, follow the SMART acronym. SMART goals mean that they are Specific, Measurable, Adjustable, Realistic and Time-Based.

Here is an example of a goal that I typically see with swimmers: "I want to swim faster." Now keeping the SMART acronym in mind, is this a good goal to set? Well, it is on its way to being a good goal. Let's make it SMART! This is an example on how to change this goal to help you actually achieve it: "I am going to drop 2 seconds in my 200 free by August 1, 2012." Now let's see, is it specific? Yes (I am saying exactly what I want to do). Is it measurable? Yes (I am able to measure the time I want to drop). Is it adjustable? Of course (as I am getting closer to August, I can adjust it if need be). Is it realistic? For sure (with hard work and determination, I can achieve this)! And is this time-based? Yes (I have set a deadline for August 1, 2012).

What's Next?

Okay the SMART goals have now been set. You are all done, right? Nope! Setting the goals is just part of the process. Now that you know what you want to do, make sure it is written down and put in a place where you will see it on a daily basis (refrigerator, bathroom mirror, bulletin board, etc.). You need to keep your goal on your mind if you want to achieve it. Another way that I find keeping track of my goals is to keep a goal-progress journal. I check in regularly in my journal on what I did that day to work towards my goal, what may have been challenging that day and what I thought I did well. It is also fun to look back at your journal after achieving your goal and reflecting back on all the hard work you've done!

Now before we move forward, I want you to think back to your previous New Year's Resolutions over the last few years. I am sure there are many of you who have accomplished your goals, but some of you that may have not. We also may know what seems to be our inevitable downfall, while the rest of us may have no idea why we cannot seem to carry out our

Fitness

Is It Real or is It a Magazine Cover?

Trainer Helen Thurlow

Here's a story of boy meets girl; girl falls in love, boy dumps girl. "Why" the girl asks, "I finally look like the girl on the cover of the magazine." "That's the problem..." the boy says, "I didn't want the girl on the magazine, I wanted you."

Why do we work so hard to look like the models on magazines when the models themselves look like they haven't been fed in months.

I recently took the Women's Health 2012 Training Guide to the gym and I asked the guys for their opinion on the cover of the book. Here are their answers: "She's too skinny." "No muscle tone or definition." "Doesn't look fit, does she even work out?" And one of the guys went as far as saying the model wasn't even attractive.

Where are Deena Kastor, Dara Torres and Annie Sakamoto? These women need to be on the covers all the time for they are not only strong women on the outside, but strong women on the inside. They are real women who are active, who have jobs, husbands and children. They are realistic people who both young and old should look up to.

In order to change this notion of obsessing over what we look like; let's tweak a few things. Stop obsessing over your weight. I know it's easier said than done, I look in the mirror myself and sigh, but we really need to stop worrying what our scales say. So what's the new obsession, then? Focusing on how fit we are or how fit we can become.

But let's define a few terms first. The word *athletic* is defined as someone being physically strong and active. The word *athlete* is defined as someone who has been trained or is gifted in exercises or contests involving agility, stamina, or strength. The word *fitness* is defined as someone who has the quality of being suitable to fulfill a particular role or task.

See the difference? I'm not asking you to start

training like a world class athlete (unless that is your goal), but if you can't keep up with your kids...well?

If you are a beginner start gradually; there are a lot of mini-steps you can take to become fit. For instance, if you drive to work, park the car where you have to walk farther to the office. Perform squats or hamstring curls while on the phone or if at home while brushing your teeth or cooking dinner. Take 10 minutes, even if you have to schedule it in, out of your day to do something active, whether it is a brisk walk, yoga, jumping jacks or playing Frisbee. Turn off the TV, do some other activity, like cooking a new recipe, calling friends to catch up...ask them to join you for your walk. That 10 minutes might turn into 30 minutes or longer. We squat down to pick up something, we stretch up to reach in the cupboard, we turn and twist when someone calls out our name; this is called functional fitness. We need to continue to increase our fitness level, so that we can enjoy life, not suffer in it.

Once you continue with these mini-steps, they become a habit and it allows for adding more steps into your fitness routine. Like going longer in your swim, taking spin classes or boot camp classes at your local gym. Vary the activities so that you don't get bored. And surprisingly you might actually have fun becoming fit.

Overall, you can look in the mirror and smile, because you will look fit and not like the cover of a magazine.

Shake and Swim with "Bake"

Active Recovery

Coach Dennis Baker

I have written a lot about the need to properly warm up and down before and after your races. We have always known that it is good to get your heart rate up before you race to get warmed up. Recently, there have been a lot of studies done about what happens to your body after a race. Here are some ideas and tips for you to try after a race or a sprint type practice.

1. You must immediately start the warm down process after a race. We as masters love to socialize but we need to make our way to the cool down lane or pool quickly.
2. After swimming about 10 minutes easy try to elevate your heart rate again. This will start the process of flushing out the lactic acid you have just built up during your race.
3. Example: 8 x 50s with 10 seconds rest in between. The odd numbered ones go easy and the even numbered ones do negative split with the second 25 strong.
4. Finish with another easy 100.
5. Studies show this will tremendously increase the rate that lactic acid leaves your body.
6. This can be applied to your workout schedule as well.
7. If you have a big sprint day, the next day do some long aerobic swimming mixed in with some descending or negative split sets down to strong efforts. Elevate your heart rate for 300 yards total. This will still be considered your recovery workout or day.

Try "Active Recovery" in your swimming and other athletic endeavors and you will be well on your way to better racing and training.

Swimmer Mantras to use to get you through practice

© topendsports.com

- ∞ "You are as good as you want to be."
- ∞ "I feel good, I feel strong. I can swim all day long."
- ∞ "Breakfast (lunch; dinner) is waiting."
- ∞ "What doesn't kill you, makes you stronger."
- ∞ "Take it to just below vomit and hold."
- ∞ "I can swim for miles and miles and miles..." (to the Byrds song)
- ∞ "I am my own Favorite Athlete".
- ∞ "Do or do not; there is no try!"
- ∞ "Uno Mas"
- ∞ "You don't have to be great everyday...just today!"
- ∞ "Mermaids (submariners) never feel fatigue."
- ∞ "No limits"
- ∞ "It's all in your brain."
- ∞ "I don't quit when I'm tired. I quit when I'm done."
- ∞ "Whether you think you can, or whether you think you can't, you're right."
- ∞ "There is no substitute for hard work."
- ∞ "There is no substitute for Time in the Pool (TITP)."
- ∞ "New day, new goals, new achievement."
- ∞ "Give the world the best you have and the best will come back to you."
- ∞ "Don't believe everything you think."
- ∞ "It is what it is."

Long Distance Swimming

Coach Bob Bruce

Wrapping up the 2011 USMS Postal Championships, the Oregon LMSC capped another fine year with a strong showing—including all four National Club Championship titles for the Oregon Club!—in the 2011 USMS 5-km, 10-km, 3000-yard, and 6000-yard National Postal Championships. Here's a quick summary:

5-km: 37 Oregon-registered swimmers (22 women & 15 men) entered the event. Serena Johnson and Dave Radcliff each won the national title in their respective age group. Eight Oregon Club Relay teams won their events. In club scoring, Oregon club won the national championship for the fourth consecutive year.

10-km: 19 Oregon swimmers (8 women & 11 men) entered. Chris Tujo, Ralph Mohr, and all seven Oregon relays won their events. In club scoring, Oregon club won the national championship for the third consecutive year.

3000-yard: 81 Oregon swimmers (43 women & 38 men) entered. Pat Hunt, Tom Landis, Ralph Mohr, and Dave Radcliff each won the national title in their respective age groups. Eight Oregon Club Relay teams won their events, with the Mixed 75+ 4 x 3000 team breaking the National Record. In club scoring, Oregon won the championship for the fourth consecutive year.

6000-yard: 20 Oregon swimmers (7 women & 13 men) entered. Ralph Mohr and Dave Radcliff won national titles. All seven Oregon Club relay teams won their events. In club scoring, the Oregon Club won the championship title for the fourth consecutive year.

Congratulations to...

- Our 6 individual National Champions (USMS Long Distance All-Americans!)
- Ralph Mohr and Dave Radcliff, our triple National Champions

- Our 30 relay team National Champions (USMS Long Distance Relay All-Americans)
- Our 7 Oregon Individual Record breakers—Jayna Tomac, Mary Sweat, Colette Crabb, Pat Hunt, Matthew Miller, Hardy Lussier, Ralph Mohr
- Our 2 National Relay Record teams— Mixed 45+ 4 x 6000 relay team of Karen Matson, Mary Sweat, Darrin Lajoie, & Hardy Lussier, and Mixed 75+ 4 x 3000 relay team of Nina Gee, Pat Hunt, George Thayer, & Dave Radcliff
- Our 9 Oregon Relay Record teams, including many different swim stars
- Everyone who participated. The Oregon LMSC—including all clubs—continues to improve in this category, which is ultimately the bottom line in these excellent fitness events

Look for the full Oregon results in this *Aqua Master*. They are impressive! What is even more impressive is the fact that we continue to lead the nation so consistently in the postal swims—apart from the One-Hour Swim, the Oregon Club has won 15 of the last 16 national postal club titles!

Postal Series: Thirty-three Oregon LMSC swimmers qualified for the 2011 Oregon Postal Series by swimming in three or more of the USMS Postal Championship Swims during the year. Thirty of those swimmers qualified for the Oregon Postal Participation Award by swimming at least one of these swims in each of the three postal seasons. And ELEVEN swimmers swam all five events, thus qualifying for the USMS Postal Participation Award. Patches are coming soon! See the results in this *Aqua Master*.

2011 Postal Swims in Brief Review: 328 Oregon swimmers from 17 local teams (with 452 swims overall) participated in at least one National Postal

2011 Oregon LMSC 5 km & 10 km Postal Swim Results

O = Oregon Record
N = National Record

* = Oregon All-Time Top Twelve Time
(...) = Swam & reported time but did not enter the event!
Place numbers are national places

A note about club scoring: Club point scoring is calculated based on Quality Points, which is the ratio of each individual time to the current USMS Record for the gender & age group and expressed as the three-digit number that you see in the results. The faster the swim the more Quality Points a swimmer earned. Club totals are the sum of the quality points of its individual swimmers. Since every swimmer receives quality points, every swimmer counts!

2011 Oregon LMSC 3000 yd & 6000 yd Postal Swim Results

O = Oregon Record

N = National Record

* = Oregon All-Time Top Twelve Time

(...) = Swam & reported time but did not enter the event!

Place numbers are national places

A note about club scoring: Club point scoring is calculated based on Quality Points, which is the ratio of each individual time to the current USMS Record for the gender & age group and expressed as the three-digit number that you see in the results. The faster the swim the more Quality Points a swimmer earned. Club totals are the sum of the quality points of its individual swimmers. Since every swimmer receives quality points, every swimmer counts!

Notes from the March, 1977, AquaMaster

I am not sure how many have been in OMS long enough to remember Connie Wilson, Earl Walter (OB) and the early days of OMS. Hope you enjoy this look at the past, even if you don't remember the players. — Editor's Note

- ◇ Connie Wilson made an appeal for people, to write and send articles in.
- ◇ Team Approach for Association Championship at Tigard stressed.
- ◇ New Team Championships trophy now available.
- ◇ Known teams are: MAC with 50, Tualatin Hills at about 12
- ◇ Vancouver forming under the guidance of Matt McCudden at Marshall Swim Center, and Portland YWCA was getting going with 6 swimmers.
- ◇ Association Championships scheduled for Tigard, April 2 and 3, with Sunday Events beginning at 10 AM.
- ◇ Regional Championships scheduled for MAC, April 29, 30 and May 1. Banquet on Saturday is planning to serve Baron of Beef at \$7.50 per person. Swimmer Magician, MAC's own Leo Haglund will perform. Swim Movies will be shown with Coach Trond Williams commenting. Serious and Humorous Awards will be presented by the Association.
- ◇ OB Comment: These four men (DeRoest, Booth, Burgess, Gates) were very active in OMS, can anyone give OB some information on them?
- ◇ OB remembers this: Connie Wilson had to comment: "I have unfortunately become aware in recent meets, of a tendency for some of our members to put down in various ways, the slower swimmers among us". She reminded us that just as important as swimming against others, is the competition of swimming against yourself.
- ◇ Next meet was announced for Mtn Park, June 18 & 19, Long Course Meters.
- ◇ Your board was: Connie Wilson, Chair; Earl Walter, Vice Chair; Alice Zabudsky, Records; with Doug Crichton and Trond Williams, committee members.
- ◇ OB Note : This was the first year, that we began to show some strength in relays
- ◇ NATIONALS AT SPOKANE: Our turnout was very poor, with only 28 swimmers showing up to do battle, out of our then total strength of 185.
- ◇ OB Comment : We were definitely not strong in those days at the National level.
- ◇ Our Swim Committee was now down to : Connie, OB and Alice Z. Connie asked for the formation of more Clubs. She felt that the formation of clubs helped the individual and the program, which it did, and still does. Let's put the pedal to the metal on our clubs.
- ◇ That's it for 1977 folks, our membership was approximately 275.

2011 Oregon Postal Series Final Analysis

1. Scoring through ten places: 11-9-8-7-6-5-4-3-2-1. All five events count.
2. Points advance with swimmer when moving up an age group (indicated by asterisk)
3. Oregon Postal Series: Swim and enter three events in the calendar year.
4. Oregon Participation Award: Swim and enter the One Hour Swim, 5 or 10-km Swim, and the 3000 or 6000-yard Swim in the calendar year.
5. USMS Participation Award: Swim and enter all five events in the calendar year.

LONG DISTANCE

Continued from Page 6

Swim. COMA (go figure!) again led the way with 57 swimmers, 104 swims, and 11 Oregon Series qualifiers. CGM had 59 swimmers (a very high percentage of the team) participate in the One-Hour Swim, but interestingly no swims in any of the other four postals. LSWM and ORM each had an outstanding high percentage of swimmers with multiple swims. THB—host of the One-Hour Swim—had 34 swimmers participate, and CAT, EA, & NCMS each also had more than 10 swimmers each involved. The Oregon Club won 4 (of 5) USMS Club Championships!

Looking forward to 2012:

- I hope that even more Oregon local teams and clubs become involved (the number of participating OMS teams stayed constant in 2011, despite larger individual participation).
- I hope that each local team and club sees more swimmers participating in more swims.
- I hope that the Oregon Club can challenge for the National Club championship in the One-Hour Swim.
- I hope that we all remember that the Postal swims are more than just championships; they are outstanding fitness events for EVERYONE!

Good luck and good swimming!

Just some statistics...

from USMS.com

Number of OMS Individual Top 10 Listings

Notice that 2008 had the highest total

	SCM	LCM	SCY	TOTAL
2010	105	145	126	376

goals. Where do you fit? When you make the decision to make a change in your life, you are more than likely going to come across some roadblocks along the way. These roadblocks can stop us in our tracks and prevent us from moving forward. However, if we are prepared for these challenges, we do not let them throw us off our course.

I will be discussing what some of these roadblocks looks like and how to prepare for them in a follow-up article.

February Fitness Challenge 2012

by Dave Radcliff

Dear February Fitness Participant,

Last year we celebrated 20 years of the FFC and now this year we begin our third decade. We invite you to join the 2012 February Fitness Challenge! We hope you will have a successful and rewarding month of swimming. Our numbers have fallen off in the last few years, please talk up the FFC and encourage some new swimmers to take the Challenge!

1. This will be the second year that you can do everything on-line. You can enter, log your yardage and pay your fees. Last year one of the swimmers would just send in her daily yardage by using her smart phone. She said it made it so easy to track everything. Payment will be handled by Google Checkout, so your personal and financial information will be totally secure. Go to <http://www.eregisterexpress.com/app/ffc/3709593/> and follow their instructions. The company charge for using their internet service is 40 cents for processing and 4% of the cost. Your \$10 entry would have a 40 cent processing fee added and the 4% would add another 40 cents. So the total cost of entering online would be \$10.80. These same fees will also automatically be added to T shirts and caps if you order them online.
2. The mail-in procedures are the same as always. We welcome your entries either way.
3. We will continue the procedure we began several years ago. You can miss any one day and still be eligible for the Gold Day Pin. Since this is Leap Year, we also give you that day. We have you covered this year and 27 to 29 days will earn the Gold Pin for anyone entered in the Day Challenge for the FFC.
4. We believe that consistency is one of the keys to a successful February Fitness Challenge. Therefore, we are continuing our Silver Day Pin Award. To earn this Silver Pin you must average 5 days a week (20 - 26 days). This Award is for anyone who does the required number of days. It has nothing to do with total yardage but everything to do with being consistent. You must enter the Day Challenge to earn either the Silver or the Gold pin.
5. Again this year the Barracudas will give a special 100,000 yard pin to every participant who swims at least 100,000 yards. 100,000 yards is a major goal for many swimmers. You do not have to sign up for this pin. It is a gift from us and our way of saying thank you and congratulations for an outstanding effort.
6. Jon, our "Data Pro", has enhanced his Excel spreadsheet to help you keep track of your yardage this year and it also can be used as your entry. Go to our website (<http://www.barracudas.org/>) to download this helpful spread sheet. Click under February Fitness Challenge on our home page to locate the Excel spreadsheet. Those of you who use this spreadsheet are welcome to mail it as your entry form rather than filling out the attached entry form. Use the tabs at the bottom of the Excel Spreadsheet and click on Tracking. As you fill in the Tracking Form during February, it will automatically fill in your totals on the Entry Form. At the end of February click on Entry Form and fill in the personal data and then print the Entry Form and mail it in. This will help you and it will really help us.
7. Our Graphic Designer has designed another great T-Shirt for this year. This year we will offer the T-Shirt in either short sleeves or long sleeves. We realized that in the middle of winter, many swimmers wanted a long sleeve T-Shirt. Our shirt this year will be maroon in both the short and long sleeve model. Colored pictures of the design are available on the Barracuda website <http://www.barracudas.org/> Again for 2012: Mailing costs continue to be the big "challenge" for the Barracudas. To help us out we are offering this deal. For any team with 10 or more entrants we will give a free T shirt to the "Team Distributor". All of the individual mailing envelope packages will be packed in one large box. This box will be mailed to the "Team Distributor", who in turn will hand out the envelopes (each clearly marked with the name of the swimmer) to their team mates at their home pool. For teams of 5 - 9 members we will give a free FFC swim cap. If you are willing to be the "Team Distributor" for your team please contact me by email. My email is listed below.

Thanks and let's have another great Challenge.

The Start of USMS

From *Streamlines*

Conversations about competitive swimming for adults began in the 1960s. But it wasn't until 1971 that the ball really got rolling. Below is a timeline of some of the historical highlights of the evolution of Masters Swimming. USMS can trace its roots to a few committed volunteers. It will owe its future to thousands of committed volunteers! For more information, visit the [History and Archives](#) page at usms.org.

- **1970:** 46 swimmers gathered in Amarillo, Texas and competed in the first unofficial Masters Nationals. The meet was advertised in *Swimming World* magazine.
- **1971:** Ransom Arthur and John Spannuth presented their idea for a Masters swimming organization to the Amateur Athletic Union, then the governing body for all swimming.
- **1971:** Nationals were again held in Amarillo, Texas with 160 swimmers participating.
- **1972:** Long course nationals were added in Bloomington, Indiana; 188 swimmers participated. Short course nationals were held in San Mateo, California and 325 swimmers participated.
- **1973:** After much lobbying, the AAU created a Masters Swimming Committee.
- **1978:** The Amateur Sports Act broke up the AAU and USMS became the only self-governed Masters Swimming national governing body in the world.
- **1980:** United States Aquatic Sports is formed and USMS is given full and equal recognition as an NGB of USAS.
- **1981:** United States Masters Swimming incorporated and enrolled 11,000 members. USMS benefitted from the local AAU volunteer network.
- **1984:** First Masters World Championships are held in New Zealand with 2,000 swimmers.
- **1986:** First FINA Masters World Championships are held in Tokyo with 3,400 swimmers.
- **1986:** USMS registered its 20,000th member.
- **1988:** FINA officially recognized USMS; USMS had 28,000 members at the time.
- **1996:** The USMS website, usms.org, was created and has become the leading information web resource for Masters Swimming.
- **1998:** 36,000 members. Along with membership growth came an expansion of rules to accommodate the various local organizations and types of meets.
- **1998:** First All American awards given to Long Distance swimmers (open water and pool long distance events.)
- **2001:** USMS registered its 40,000th member.
- **2008:** USMS hired a full-time executive director and rebranded itself
- **2009:** USMS established its first national headquarters in Sarasota, Fla.
- **2009:** USMS registered its 50,000th member.
- **2011:** 56,000 members and growing fast.

In 2020 USMS will celebrate its 50th anniversary. Twenty years since that first meet; and much longer since that first idea.

So, over the years has anything stayed the same? Well, socializing and swimming for the joy of it are two threads that bind the USMS community. What's changed? Times have dropped as surely membership has exploded. For example, in 1970, the best women's time in the 35-44 age group for the SCY 100 free was 1:24.5. Now, of course, that age group has been divided into two age groups; Dara Torres holds the 35-39 age group record with a 49.72 set in 2007 and she also tops the 40-44 age group with a 48.34. Here's to a banner 2012!

Eighth Annual Animal Masters Meet
OREGON MASTERS SWIMMING SHORT COURSE YARDS MEET
 Eligibility: Currently registered USMS swimmers, 18 years and older.
 Sanctioned by Oregon LMSC for USMS, Inc. • Sanction #372-02

Location: Canby Municipal Pool
